Benefits and Ingredients

Exactly how do these key ingredients play a role in weight management? It's simple; each one directly and naturally promotes calorie burning and fat breakdown!

Forslean®, an extract of the herb Coleus Forskohlii, contains an active ingredient that promotes weight and inch loss while maintaining lean muscle mass, the missing link in long-term weight management programs.

- **ForsLean®** was voted "**Best New Product of 2001.**" www.nutraconference.com
- Reduces body fat and enhances lean muscle.
- Mobilizes fat and supports thyroid function.
- Naturally enhances metabolism.
- Restores the youthful responsiveness of fat cells.
- Clinical studies have demonstrated additional health benefits. Learn more on www.forslean.com/newsletter.htm

ChromeMate™ (chromium polynicotinate), a natural form of chromium with B-vitamin Niacin.

- Helps body burn calories.
- Promotes weight & inch loss.
- Preserves lean muscle mass.
- Accelerates fat burning.
- Helps regulate metabolism.
- Helps control appetite and cravings.
- Helps body to stay in a fat burning mode.

Guarana

- Enhances the action of ForsLean®.
- Triggers the body to burn calories and fat.
- Increases mental alertness & elevates mood.
- Decreases fatigue and decreases appetite.

Cosmoperine® (tetrahydropiperine)

to enhance delivery of active compounds and assure the ultimate in patch performance.

Thyroidinum 30C is a homeopathic extract designed to stimulate sluggish metabolisms.

POWER PATCH has even more Fat Loss power with 50% more **ForsLean®** added and:

5-HTP is an amino acid that acts as a natural and powerful appetite suppressant.

Diiodotyrosine assists the thyroid gland to maintain its function and help preserve lean muscle.

Most Frequently Asked Questions

How does the Patch work?

The **Fat Loss Patch** uses only natural ingredients, including two key patented ones, Forslean® & ChromeMate®. The ingredients promote weight/fat loss while maintaining lean muscle mass... the missing link in other weight loss programs. Preserving lean muscle mass during weight loss is significant because it is a tremendous calorie burner and lean tissue is what defines the body's shape. This transdermal patch "time releases" the ingredients over a 24-hour period, allowing you to stay in control of your appetite and cravings. The ingredients are absorbed directly through the skin. By stimulating your body's natural metabolism, it causes your body to process food more efficiently and helps avoid storing calories as fat. Unlike other dietary products, this delivery system helps prevent nervousness, jitteriness, and heart palpitations.

How soon before I'll see results?

Many people begin to see results within the first week or two, although others may take longer. It takes time for our body's metabolism to adjust and rebalance. Be patient and pay special attention to **inches lost** versus pounds lost. You probably didn't gain your excess weight overnight. Look at this as a "90 to 120 day program" to experience the long lasting benefits of this unique & cutting edge product.

Where do I wear the patch?

It is best to wear the patch on a clean, dry, **lean area** such as inside of forearm, shoulder, upper back, shin, and below the collar bone...areas where it will have good contact with muscle. We recommend wearing it someplace visible, like on your forearm, as a reminder of the goal you want to accomplish.

This information is for educational purposes only

How is the Jen Fe Patch different from other dietary patches?

Unlike similar products, all the ingredients used in our products are known weight management and/or metabolic impact food supplements.

(www.forslean.com/newsletter.htm)

These food sources are all-natural herbal extracts used by the Asian community for centuries. They are scientifically blended into this transdermal formulation that enters the bloodstream with greater efficiency and absorption.

What if I don't feel it working?

This remarkable patch is subtle, avoiding unwanted side effects commonly seen with other stimulant products like Ephedra. Some people will feel a slight "tingling" sensation where they wear the patch while others won't. Even if you don't feel the tingle, the ingredients are still being absorbed and the patch is working.

Do you have other products to enhance weight loss?

Yes! As a complement to the **Patch** and the **Power Patch**, add **Corterra Xcel**, a Cortisol compensation factor helps "stress induced" extra weight and is helpful for the tummy area. Other helpful aids include **Cell Energy Elixir**, **Energy Dynamix**, **AcquaCal**, a plant-based source of calcium, and **Xceed Multi**, a superb multi-vitamin, mineral, and anti-oxidant formulation.

Now you can **break the yo-yo diet cycle** and lose unhealthy weight and inches **for the very last time!**

If you are under the care of a physician or on medication, consult your physician before starting any weight loss program.
